SOLUTIONS

Budget Hosting

Low Cost Single Server Network With Full cPanel
Features, Perfect For New Start-up and Individual

Pushing Forward:
Visibility and Accessibility

- *Be recognized.*
  - *Established presence through Budget Hosting.*
    - *The solution that provides low cost entry as you build for increased presence and visibility*

1 PRESENCE
Expanded Medium

Getting people to know who you are is becoming more difficult, by creating an online presence more people are able to get access to your information.
Edge: Create more instances where you can be recognized and be known.

2 LOW COST
No Barrier to Entry

The key in creating an optimal path and platform for information is not simply its features but also its price, budget hosting provides an avenue where ease of entry is provided to users.
Edge: Ease of entrance providing immediate access to the resources you need.

3 PROGRESSING AHEAD
Power of the Web

How advancing technology has created a world increasingly reliant on the internet, with hosting you are able to create databases to store your information, allowing access anywhere.
Edge: Allow for better flexibility with mediums to store, disseminate, and manage your data.

4 MULTI-HOMED NETWORK
100% Network Uptime

A multi-homed physical network with more than 6 top-tier network connections provide layers of redundancy, and better network paths for data to go through.
Edge: Faster data transfers between locations because of added top tier networks. Redundant connections ensuring 100% network uptime.
Top Tier Connections: SingTel (Global), SingNet (SG), NTT (JP, US), PCCW (HK, CN), DTAG (EU), HE (US)
